2 May 1972

MEMORANDUM FOR: Mr. Tweedy, D/DCI/IC

SUBJECT: Conference with Andy Marshall, 2 May 1972

1. Attached is a memorandum for the record relating to my meeting today with Andy Marshall to explore ways and means of developing user guidance for intelligence producers.

2. When I met with you at 1100 hours I had forgotten about my luncheon appointment with Andy and not until after I had left you did Gini remind me.

3. I told Andy of Al Hall's proposals concerning the terms of reference of the NSCIC Working Group and of the alternative that I had proposed to you. I indicated to him that he would probably be hearing from you about this and I gave him no indication as to your possible reaction to the proposal. Andy indicated, however, that the proposed changes in the draft terms of reference as I described them gave him no problem.
